 Portfolio

Career objective:

To work as a DCS / PCS 7 Automation Engineer where I can use my 2+years of experience in Siemens PCS 7, CFC logic, TIA Portal, PLC programming, SCADA, Server/OS Client configuration, industrial communication, testing, and commissioning while continuing to develop my technical skills.

Educational Qualifications

Qualification	Institute	Board/University	YOP
B Tech (EEE)	Christu Jyothi Institute of Technology And Science, Jangaom	JNTU-Hyderabad	2023
Diploma (EEE)	Brilliant Institute of Engg & Tech Abdullahpurmet	SBTET	2020
SSC	Shubhodaya Vidyaniketan High school, Cherial	SSC	2017

Job Details :-

Company: [Utthunga Technologies Pvt. Ltd. – Bengaluru](#)

Role: Associate Control Automation Engineer

Industry: *Multinational Industrial Automation, Software & Engineering Services Company*

Duration: Sep 2025 – Present

Project:-

1. Iron Ore Beneficiation Plant Automation –DCS | Siemens PCS 7 & SCADA At MSPL, (Sandur)

Responsibilities

- Worked on Siemens PCS 7 DCS engineering and programming.
- Developed CFC logic based on P&ID and plant requirements.
- Developed and modified SCADA screens as per project requirements.
- Installed and configured ES/OS servers and clients.
- Configured DCS controllers and RIO panels.
- Performed I/O checking and verified field signals.
- Checked DCS to RIO communication and Profinet communication.
- Tested motor, valve, alarm, interlock, command, and feedback logic.
- Supported system testing, commissioning, troubleshooting, and plant start-up.

2. Siemens PCS 7 SCADA Migration & Plant Automation Modernization JSW (Karnataka)

Responsibilities:

- Upgraded existing Siemens PCS 7 engineering and operator systems.
- Upgraded and configured DCS servers and client systems.
- Migrated the existing PCS 7 project to the new system environment.
- Configured and checked Engineering Station (ES) and Operator Station (OS).
- Checked DCS controllers, communication, and existing I/O configuration.
- Verified SCADA screens, tags, alarms, and control logic after migration.
- Performed system testing and troubleshooting after migration.
- Supported plant operation during migration without disturbing production.

Company: Techsys Automation Pvt. Ltd. – Hyderabad

Role: Project Engineer

Duration: Aug 2024 – Aug 2025

Project:-

1. HNSS Irrigation Project (GSM-based Remote Telecommunication (Anantapur)

Developed a SCADA-based remote monitoring system for 19 pump houses located at different field locations, enabling centralized monitoring of field equipment and pump operation from the head office. The system used M2M communication to transfer PLC data from the pump houses to the central SCADA system.

2. BESTCON AAC Blocks Factory Automation (Tamil Nadu)

Worked on PLC, HMI, SCADA and electrical control-panel automation for an AAC blocks manufacturing plant in Tamil Nadu. The work involved PLC/HMI programming, panel wiring, motor control wiring, drive configuration, batching section development, load-cell checking, testing, trial runs and plant automation activities based on site and client requirements.

Technical Skills:

- **DCS :** Siemens PCS 7 – CFC Logic Development
- **Programming:** CFC, STL
- **SCADA/HMI:** WinCC SCADA/HMI Development
- **Testing:** FAT, SAT & I/O Testing
- **System Configuration:** Server / OS Client Configuration
- **PLC:** Siemens S7-1200 / S7-1500, TIA Portal – Working Knowledge
- **HMI:** Siemens KTP HMI, Delta HMI – Working Knowledge
- **Communication Protocols:** PROFINET | PROFIBUS | MODBUS RTU/TCP
- **Database:** SQL – Basic
- **Programming Languages:** C, C++ – Basic

Academic project:

- **Major project title:** Based on the azure IOT central application, Real time honeybee farm monitoring and alerting with live streaming.
- **Mini project title:** 132/220kv overview of substation.

Training:

Advanced Embedded Systems Training – Vector India

8-Months Hands-on Training in Embedded Systems, C/C++, ARM & 8051 Microcontrollers

- Multi-purpose E-Card system using RFID technology

Certification:

-

- Embedded systems certified (vector India)
- TATA Technologies Certified
- Fundamentals Azure Microsoft Certificated
- FRT Certificated
